

BTE400 Group Project

Each group will choose a business category from the list below. A group may also propose its own category not included on the list. The proposed category should be realistic, appropriate for the project scope, and sufficiently different from categories already selected by other groups. Any proposed category must be submitted to the instructor for approval and may not be used until approval is granted.

Categories

Fitness & Wellness	Eco-Friendly Products	Outdoor & Adventure Lifestyle
Dorm & Apartment Living	Pet Supplies	Food Prep & Kitchen Gadgets
Study & Productivity Tools	Beauty & Self-Care	Fashion Accessories
Travel & Commuter Essentials	Gaming & Accessories	Tech Accessories

Group Project Components

- Online Shopping Cart Store
 - $(2 + 3 * \text{groupSize})$ Products Catalog (e.g. group of 4 = 14 products)
 - 1 Signature Custom Product (e.g. 14 products + 1 specialty = 15)
- Customer Service Agent (GCP - platform)
- Cloud Operating Expenditures Forecast - 5 Tier Scale Up Estimates (i.e. Yearly)
- Kickstarter **Preview** Campaign for New Product in the selected Category
- Group Project Management Methodology Utilized ~ SCRUM

Requirements

1. Agent RAG – (DATA: website, structured and unstructured data)
 - a. Any Service
 - b. Contact Information
 - c. Location
 - d. Product Information
 - e. Pricing Information

2. Cloud Operating Forecast
 - a. Excel Scale Sheet for cloud expenses only
 - b. Annual Cloud Spend Graph
 - c. 5 Tier Cloud Scale Up Plan
 - d. Include assumptions used for annual growth and cloud service usage
 - e. Include cloud categories only (e.g. hosting/compute, storage, database, CDN, monitoring, AI/API services if used)
 - f. Exclude inventory, wages, shipping, rent, and manufacturing costs from this section

3. Kickstarter (Signature Custom Product) – **PREVIEW ONLY**
 - a. (1*groupSize) Perks (Reward Tiers)
 - b. Pitch video (<5 Minute & >1 Minute)
 - c. Rules compliance
 - d. \$10K or less funding (Fixed funding)
 - e. FUNDING TAB – only enter campaign goal and fixed funding (**no personal info**)

4. SCRUM – Project Management
 - a. Sprints
 - b. Sprint Review Presentation (TBD)

Project Management

Use the SCRUM framework in managing the group project. A total of 3 sprints will be used for the final deliverable. Members of the team will take turns during each sprint acting as the Product Owner and SCRUM master. All members are expected to contribute to sprint deliverables regardless of role being played. Each team will demo the sprint deliverable to the instructor (2-5 minutes) at the end of each sprint in a class product review. Scrum boards utilized maybe physical or online. Scrum board images will be submitted every Wednesday throughout the project timeline.
